Austria

DATA SCIENTIST

A Data Scientist analyzes complex data sets to extract insights and support decision-making using statistical and computational techniques.

20%

MY PROJECT

Leveraging computer science to develop educational environments, including teaching platforms for example, can greatly enhance the learning experience in Morocco and bring about significant improvements in accessibility, quality, and efficiency.

Online Learning Platforms
Provide access to e-books, videos, and other digital resources to supplement traditional learning materials.
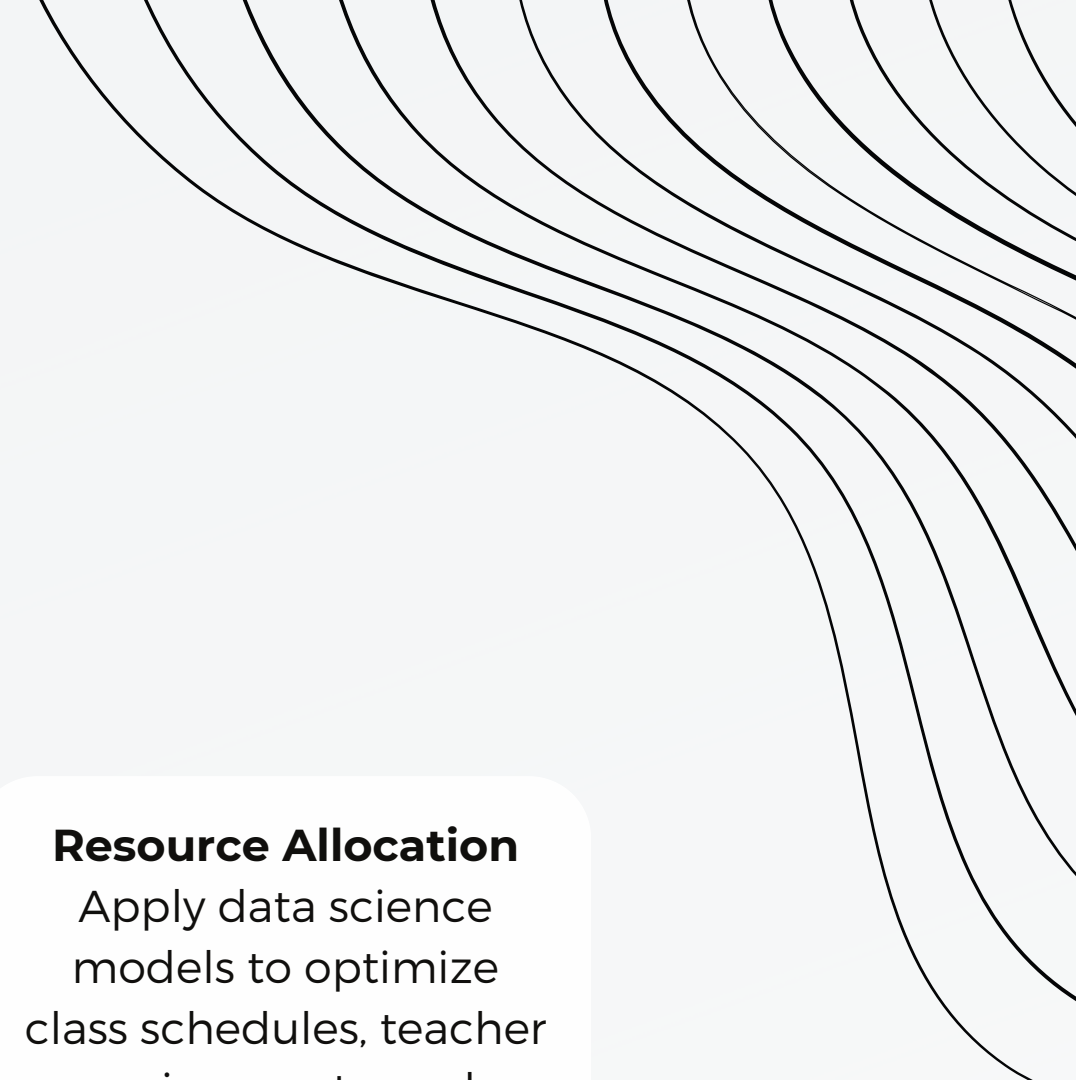

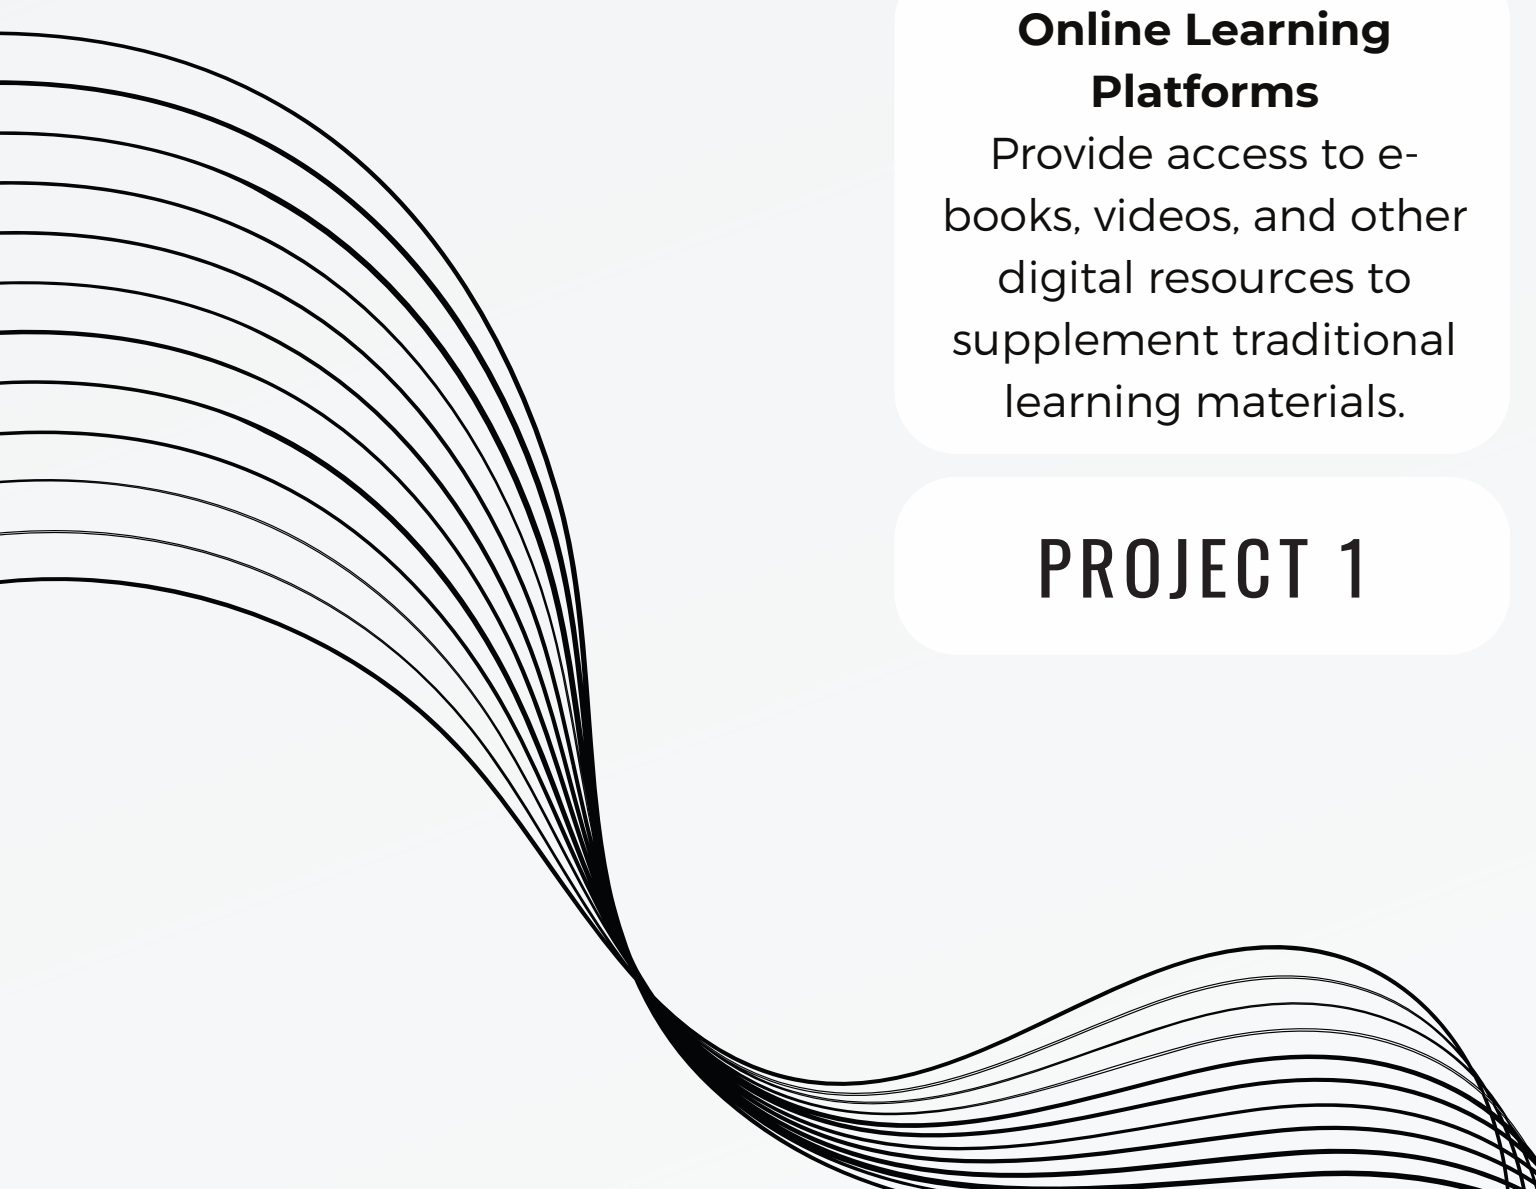

PROJECT 1

Learning Analytics
Use predictive analytics to identify students at risk of falling behind and provide timely interventions.

PROJECT 2

Resource Allocation
Apply data science models to optimize class schedules, teacher assignments, and resource allocation based on historical data and real-time demand.

PROJECT 3
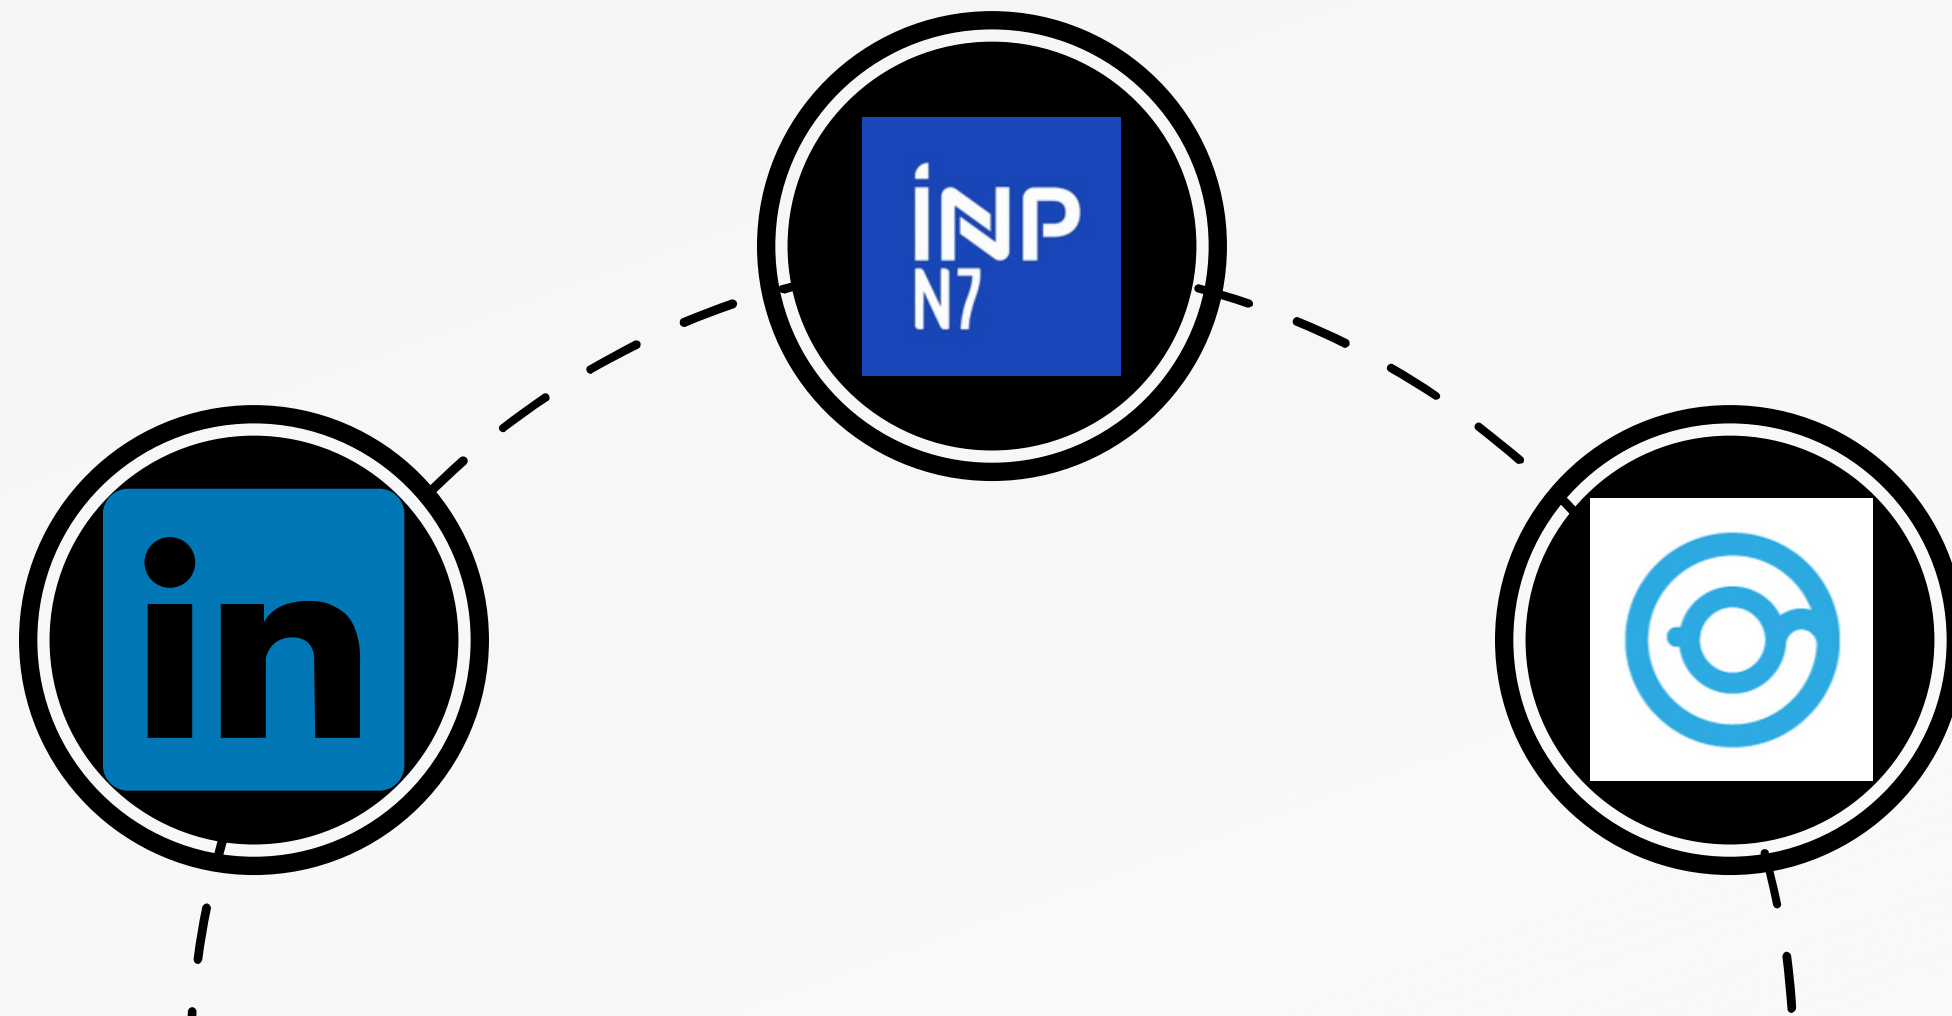

NETWORK CONNECTING

LINKEDIN

Expanding my social network
Searching for internship

MILLION ROADS

The profile that attracted me most is that of Ali, a Moroccan who wstudied in France, then he started a new position in Morocco as a project manager at OCP Morocco.
